MIAMI REAL ESTATE LEADERS HONORED AT 4TH ANNUAL CITY NATIONAL BANK BETTER BEACH AWARDS

Bisnow was on hand last Friday when the Miami Beach Chamber of Commerce announced the winners of its 4th Annual City National Bank Better Beach Awards. The nominees and winners were an exceptional bunch, as they had to be to stand out in a real estate market as dynamic as Miami's in 2016.

Manny Hernandez

The **Forward Thinking Award** honors an individual and institution who has developed creative solutions to address problems facing the real estate industry. Pathman Lewis' **Wayne Pathman** (center) received the individual award, and **Dr. Juliet Pinto** (second from left) represented the institutional winner, Florida International University's Department of Journalism & Broadcasting. Both earned their awards for raising awareness of rising sea levels, one of the most destructive effects of global climate change and one that looks to hit Miami **especially hard** in the not-too-distant future.
